Originally from Moscow. I am an undergraduate Moscow State University in the direction of physics and chemistry. I also studied Python and C++ within the University program. In the summer 2022 I worked in Skolkovo Institute of Science and Technology. Also have worked as math tutor for school students for two years. Now I am interested in web development to apply the acquired knowledge in future work. Currently studying at Tlalim Masa Web Development program in Be'er Sheva and looking for an internship as a Frontend/Fullstack Developer.

Experience

Skolkovo Institute of Science and Technology (internship) | Center for Materials Technologies

Research Intern | Skoltech

June 2022 – September 2022 | Russia

- Carried out the experiments
- Processed photos and videos of the results of experiments
- Worked closely with people who wrote the code for the experiments in the Arduino program

Moscow State University | Laboratory of Nanobiostructures, Department of Macromolecular Compounds

Laboratory Assistant

September 2020 – June 2022

- Carried out the experiments
- Analyzed the results by dynamic light scattering (DLS), electrophoretic mobility (EPM), fluorescence, scanning electron microscopy (SEM) and transmission electron microscopy (TEM) methods
- Processed the analysis data with OriginLab, WinXPOW and Jana 2006

Education

Web Development Course, Masa Tlalim

November 2022 to now | Israel, Beer Sheva

Lomonosov Moscow State University (top 10 the best universities in Russia), Faculty of Material Science: physics, chemistry, material mechanics

September 2019 – September 2022 | Russia, Moscow

Languages

- ✓ Russian (native),
- ✓ English (advanced),
- ✓ Hebrew (beginner)

Skills

- ✓ HTML
- ✓ CSS
- ✓ JavaScript (ES6+)
- ✓ Node.js
- ✓ React
- ✓ C++
- ✓ Python
- ✓ Pascal
- ✓ Data Processing and Analysis (Excel, OriginLab, WinXPOW, Jana 2006)
- ✓ Tutoring
- ✓ Volunteering
